## **DETAILED ACTION**

### ***Continued Examination***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 15, 2006 has been entered.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 31, 32, & 64 are rejected under 35 U.S.C. 102(e) as being anticipated by Nakamura (US 5,906,472). Nakamura discloses all of the claim limitations in a similar device in FIG. 5, the device comprising a(n): Casing KAS, movable retaining elements 12A-B, floating plate 14 movable coupled to a guide structure, and a C-shaped channel (FIG. 3).

### ***Allowable Subject Matter***

Claims 25-30 are allowed over the prior art of record.

Claims 34, 65-73 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed May 15, 2006 have been fully considered but they are not persuasive.

With respect to claims 31 & 64, the Examiner does not agree with Applicant's interpretation of said claims. Applicant has amended to include a "floating plate movable coupled to the guide structure", a feature that is inherent to the invention and the cited prior art. For example, Nakamura's floating plate 14 is "movably coupled" inasmuch as it moves (C13/L60) and further is coupled to casing KAS via structure tray removing apparatus 10 which is coupled to casing KAS as well. "Coupled" is broadly interpreted as when the apparatus, in this case a casing having a guide structure, consists of an assemblage of parts which, taken as a whole, are clearly coupled to said part in question. Thus, floating plate 14 is moveable coupled to casing KAS.

### ***Conclusion***

This is a continuation of applicant's earlier application. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3652

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no, however, event will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
